

Good Afternoon Everyone,

Hope you all are enjoying our early spring weather.

Speaking of spring, here is what is going to be happening this spring in our area...

1. Greater traffic on our roads. Please slow down when approaching anyone on the streets when driving. Specially when they are children. Our speed limit is 25 mph.
2. The Glen construction has begun already. It is the high end condo development going in between us the golf course. We attached the plan for all to see what is going to be done there.
3. The court battle in blocking the Strauss Slaughter facility in Franklin is still ongoing. The court has not ruled.
4. Please always take a bag along anytime you walk your dog to pick up his or hers deposit.
5. We are losing critical run off rock from our retention pond on Champions Drive. It is very expensive to replace. It is being picked up by some of our kids and tossed on the ice to bust it up. If we can ID who the kids are, the parents will be responsible for paying extra to replace them. So please talk to your kids.
6. A reminder, any changes to your property needs approval before work can begin. Painting the same color on your home or replacing dead shrubs with another type or new mulch no problem. Just let us know at cvhoaboard@yahoo.com as to what you are doing(no need to contact us if putting mulch in)
7. Daylight savings time goes into effect this Saturday. Spring ahead.
8. Our Annual Champions Rummage sale sponsored by Karen Torbeck of **Coldwell Banker Reality** has not been decided on. We are waiting till April 1st to make the final decision. Karen said even at that date she still can put it on for us. Thank you Karen.

Everyone stay safe and healthy.
